Selbsthilfe-Gruppen
(CSG) e.V.**

and

Schmerzklinik Kiel

under

**Prof. Dr. med. Dipl.
Psych. Hartmut Göbel**

Kieler Clusterkopfschmerz-Tage 2015

The programm of Kiel Cluster headache days 2015 is initially with an international setup, without losing the look on the national requirements.

On one hand there will be a comparison of traditional therapies vs. modern stimulations. And those among themselves. Therefore on stage will be both MDs and patients who have/were treated by a stimulation therapy. They all will discuss their experiences. In this block there will be space for many questions out of the auditorium, and all will be answered.

The other hand will show the international situation of care in Europe as it is at the moment. With that knowledge there is planned to find out the best way of care. Ideally that all will end in a „European Guideline for Cluster headache“.

As special guest Prof. Dr. Dimos D. Mitsikostas will appear. He is the current President of European Headache Federation.

For his time in office Prof. Mitsikostas has postulated cluster headache as his most primary assignment.

Friday, Sep. 4th 2015

<i>Uhrzeit</i>	<i>Thema</i>	<i>Referent</i>
11.00-12.00	Pressconference	Prof. Dr. Göbel; Dr. Müller CSG e.V.
